Intelligent Ultrasound Group plc
("the Company")

Change of Registered Office

Intelligent Ultrasound Group plc (AIM: MED), the ultrasound artificial intelligence (AI) software and simulation company, announces that it has changed its registered address to Floor 6A, Hodge House, 114-116 St Mary Street, Cardiff, CF10 1DY with immediate effect.

The head office move, combined with the recent opening of its dedicated warehouse in Caerphilly, will enable the Company to continue to grow its AI software development team and support the expected expansion of AI-based sales into the global clinical ultrasound image analysis market.

All formal notices and general correspondence should be sent to the new address.

About Intelligent Ultrasound Group

Intelligent Ultrasound (AIM: MED) develops artificial intelligence-based clinical image analysis software tools for the diagnostic medical ultrasound market and hi-fidelity virtual reality simulators for the ultrasound training market. Based in Cardiff in the UK and Atlanta in the US, the Group operates two divisions:

Clinical AI Division

Focusses on developing deep learning-based algorithms to make ultrasound machines smarter and more accessible. Products in development include ScanNav which uses machine-learning based algorithms to automatically identify and grade ultrasound images to provide scan assessment and audit of protocol-based ultrasound scanning; and ScanNav AnatomyGuide, which aims to simplify ultrasound-guided needling by providing the user with real-time AI-based anatomy highlighting software for a range of medical procedures.

Simulation Division

Focusses on hi-fidelity ultrasound education and training through simulation. Its three main products are the ScanTrainer OBGYN training simulator, the HeartWorks echocardiography training simulator and the BodyWorks Eve Point of Care and Emergency Medicine training simulator. To date over 900 simulators have been sold to over 500 medical institutions around the world.
