

Cardiac Function (7)

- Normal heart
- Global dysfunction
- Hypovolemia
- Left ventricular anterior wall motion abnormality
- Right coronary artery regional wall motion abnormality
- Right ventricular dysfunction with tricuspid regurgitation
- Hypertrophic obstructive cardiomyopathy with systolic anterior motion

Valve Disease (4)

- Mitral regurgitation
- Mitral stenosis
- Aortic stenosis
- Aortic regurgitation

Structural (6)

- Aortic dissection
- Atrial septal defect
- Cardiac tamponade
- Unilobed Left Atrial Appendage
- Multilobed Left Atrial Appendage
- Hooked Left Atrial Appendage

Cardiac Devices (9)

- Evolut PRO TAVR Normal Implant
- Evolut PRO TAVR Low Implant
- Evolut PRO TAVR High Implant
- Evolut PRO TAVR Constrained Valve
- Evolut PRO TAVR 80% Deployed
- Unilobed LAA occlusion device (Watchman)
- Hooked LAA occlusion device (Watchman)
- Multilobed LAA occlusion device (Watchman)
- Mechanical aortic valve replacement

Lung (4)

- Normal lungs
- Pleural effusion
- Pneumothorax
- Pulmonary embolism
